MATERIAL SAFETY DATA SHEET

Section I. Chemical Product and Company Identification

<table>
<thead>
<tr>
<th>Product Name</th>
<th>Anode Supported Bilayer/Cell</th>
</tr>
</thead>
<tbody>
<tr>
<td>Product Code</td>
<td>AEB, ASC</td>
</tr>
<tr>
<td>CAS Number</td>
<td>Mixture</td>
</tr>
</tbody>
</table>

Supplier’s Name: Fuel Cell Store
Address: 1902 Pinon Drive, Unit B
College Station, TX, USA 77845
Information Telephone Number: 614-842-6606
Date Prepared: December 15, 2014

Section II. Composition / Information on Ingredients

<table>
<thead>
<tr>
<th>Component</th>
<th>CAS #</th>
<th>% (Optional)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lanthanum oxide</td>
<td>1312-81-8</td>
<td></td>

<tr>
<td>Yttrium Oxide</td>
<td>1314-36-6</td>
<td></td>
</tr>
</tbody>
</table>

Additional information:
Zirconium is routinely found with a low level of hafnium since separation of the two elements is difficult.

Section III. Hazards Identification

♦ Hazard description: Toxic, Irritant, Harmful
♦ Information pertaining to particular dangers for man and environment
  Irritating to eyes, respiratory system and skin.
  Harmful by inhalation, in contact with skin and if swallowed.
  R 49 May cause cancer by inhalation.
  R 43 May cause sensitization by skin contact.

Section IV. First Aid Measures

♦ After inhalation
  Supply fresh air. If required, provide artificial respiration. Keep patient warm.
  Seek immediate medical advice.

♦ After skin contact
  Immediately wash with water and soap and rinse thoroughly. Remove affected clothing.
  Seek immediate medical advice.

♦ After eye contact
  Rinse opened eye for several minutes under running water. Then consult a doctor.

♦ After swallowing
  Seek immediate medical advice.

Section V. Fire Fighting Measures

♦ Suitable extinguishing agents
  Product is not flammable. Use fire-fighting measures that suit the surrounding fire.

♦ Protective equipment:
  Wear self-contained respirator.
  Wear fully protective impervious suit.
Section VI. Accidental Release Measures

♦ Suitable extinguishing agents: Extinguishing powder. Avoid use of water.
♦ Special hazards caused by the material, its products of combustion or resulting gases:
  Wear self-contained respirator.
  Wear fully protective impervious suit.

Section VII. Handling and Storage

♦ Handling
♦ Information for safe handling:
  Keep container tightly sealed.
  Store in cool, dry place in tightly closed containers.
  Ensure good ventilation at the workplace.
♦ Information about protection against explosions and fires:
  The product is not flammable

Storage

♦ Requirements to be met by storerooms and receptacles:
  No special requirements.
♦ Information about storage in one common storage facility:
  Do not store together with oxidizing and acidic materials.
  Store away from water/moisture.
♦ Further information about storage conditions:
  This product is hygroscopic.
  Keep container tightly sealed.
  Store in cool, dry conditions in well sealed containers.

Section VIII. Exposure Controls and Personal Protection

♦ Additional information about design of technical systems:
  Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

♦ Components with limit values that require monitoring at the workplace:

<table>
<thead>
<tr>
<th>Component</th>
<th>Limit Values (mg/m$^3$)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>NIOSH REL</td>
</tr>
<tr>
<td>Nickel and inorganic compounds as Ni</td>
<td>0.015</td>
</tr>
<tr>
<td>Iron oxide dust and fume as Fe</td>
<td>5.0</td>
</tr>
<tr>
<td>Zirconium Oxide</td>
<td>5.0</td>
</tr>
<tr>
<td>Yttrium Oxide</td>
<td>1.0</td>
</tr>
</tbody>
</table>

♦ Additional information: No data

♦ Personal protective equipment
♦ General protective and hygienic measures:
  The usual precautionary measures for handling chemicals should be followed.
  Keep away from foodstuffs, beverages and feed.
  Remove all soiled and contaminated clothing immediately.
  Wash hands before breaks and at the end of work.
  Avoid contact with the eyes and skin.
♦ Breathing equipment:
  Use suitable respirator when high concentrations are present.
♦ Protection of hands: Impervious gloves
♦ Eye protection:
  Safety glasses
  Tightly sealed goggles
  Full face protection
♦ Body protection: Protective work clothing.

Section IX. Physical and Chemical Properties

♦ Form: planar solid
♦ Color: Not determined
Odor: Not determined
Melting point/Melting range: Not determined
Boiling point/Boiling range: Not determined
Sublimation temperature / start: Not determined
Flash point: Not applicable
Flammability (solid, gaseous) Product is not flammable.
Ignition temperature: Not determined
Decomposition temperature: Not determined
Danger of explosion: Product does not present an explosion hazard.
Explosion limits:
Lower: Not determined
Upper: Not determined
Vapor pressure: Not determined
Density: Not determined
Solubility in / Miscibility with Water: Insoluble

Section X. Stability and Reactivity
Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.

Materials to be avoided:
Water/moisture
Acids
Oxidizing agents
Carbon dioxide

Dangerous reactions No dangerous reactions known
Dangerous products of decomposition: Metal oxide fume

Section XI. Toxicological Information
Acute toxicity:
LD/Lc50 values that are relevant for classification:
Cerium (IV) oxide (CAS# 1306-38-3), 100% Oral: LD50: >5000 mg/kg (rat)
Gadolinium oxide (CAS# 12064-62-9), 100% Oral: LD50: 5000 mg/kg (rat)

Primary irritant effect:
on the skin: Irritant to skin and mucous membranes, may be corrosive
on the eye: mild: 100 mg (rbt)
Sensitization: No sensitizing effects known.
Subacute to chronic toxicity:
Lanthanons can cause delayed blood clotting leading to hemorrhages. Exposure may also lead to sensitivity to heat, itching, increased awareness of odor and taste, and liver damage. Chronic exposure to manganese may cause impairment to the central nervous system. Symptoms include sluggishness, sleepiness, muscle weakness, loss of facial muscle control, edema, emotional disturbances, spastic gait and falling. Chronic manganese poisoning may develop after as little as three months of heavy exposure but usually cases develop after one to three years of exposure. Strontium has a low order of toxicity. High doses have caused changes in blood clotting factors, adrenal function and liver function.
Corrosive materials (such as SrO) are acutely destructive to the respiratory tract, eyes, skin and digestive tract. Eye contact may result in permanent damage and complete vision loss. Inhalation may result in respiratory effects such as inflammation, edema, and chemical pneumonitis. May cause coughing, wheezing, laryngitis, shortness of breath, headache, nausea and vomiting. Ingestion may cause damage to the mouth, throat and esophagus. May cause skin burns or irritation depending on the severity of the exposure.
Nickel and nickel compounds may cause a form of dermatitis known as nickel itch. They may also cause intestinal disorders, convulsions and asphyxia. Airborne nickel contaminated dusts are regarded as carcinogenic to the respiratory tract.

Cerium salts increase the blood coagulation rate. Exposure to cerium salts may increase sensitivity to heat, itching and skin lesions. Large doses to experimental animals have caused writhing, ataxia, labored respiration, sedation, hypotension and death by cardiovascular collapse.

Iron compounds may cause vomiting, diarrhea, pink urine, black stool, and liver damage. May cause damage to the kidneys. Irritating to the respiratory tract, they may cause pulmonary fibrosis if dusts are inhaled.

Lanthanons can cause delayed blood clotting leading to hemorrhages. Exposure may also lead to sensitivity to heat, itching, increased awareness of odor and taste, and liver damage.

Inhalation of zirconium compounds may cause pulmonary granulomas. Scandium has a low order of toxicity. As with calcium, the toxicity is generally a function of the anion.

Rare earth compounds may cause delayed blood clotting leading to hemorrhages. Exposure may also lead to sensitivity to heat, itching, increased awareness of odor and taste, and liver damage.

Additional toxicological information:
- Danger through skin absorption.
- Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach.
- Carcinogenicity classification information for Nickel Oxide:
  - IARC-1: Carcinogenic to humans: sufficient evidence of carcinogenicity.
  - NTP-2: Reasonably anticipated to be a carcinogen: limited evidence from studies in humans or sufficient evidence from studies in experimental animals.
  - ACGIH A1: Confirmed human carcinogen: Agent is carcinogenic to humans based on epidemiological studies of, or convincing clinical evidence in, exposed humans.
  - The Registry of Toxic Effects of Chemical Substances (RTECS) contains tumorigenic and/or carcinogenic and/or neoplastic data for components in this product.

Section XII. Environmental Information
- General notes:
  - Do not allow material to be released to the environment without proper governmental permits.

Section XIII. Disposal Information
- Product:
  - Recommendation
    - Consult state, local or national regulations for proper disposal.
- Uncleaned packagings:
  - Recommendation:
    - Disposal must be made according to official regulations.

Section XIV. Transportation Information
- Not a hazardous material for transportation.
- DOT regulations:
  - Hazard class: None
- Land transport ADR/RID (cross-border)
  - ADR/RID class: None
- Maritime transport IMDG:
  - IMDG Class: None
- Air transport ICAO-TI and IATA-DGR:
  - ICAO/IATA Class: None
- Transport/Additional information:
  - Not dangerous according to the above specifications.

Section XV. Regulatory Information
- Product related hazard information: observe the general safety regulations when handling chemicals.
  - Hazard symbols: T Toxic
  - Risk phrases:
    - 49 May cause cancer by inhalation.
43 May cause sensitization by skin contact.
Safety phrases:
53 Avoid exposure - obtain special instructions before use.
45 In case of accident or if you feel unwell, seek medical advice immediately.

♦ National regulations
All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory.
This product contains a chemical known to the state of California to cause cancer or reproductive toxicity.

♦ Information about limitation of use:
For use only by technically qualified individuals.
This product contains nickel and is subject to the reporting requirements of section 313 of the Emergency Planning and Community Right to Know Act of 1986 and 40CFR372.
This product contains manganese and is subject to the reporting requirements of section 313 of the Emergency Planning and Community Right to Know Act of 1986 and 40CFR372.

Section XVI. Other Information
Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

MSDS Prepared by: Nexceris, LLC
404 Enterprise Drive
Lewis Center, OH 43035

Vendee and third persons assume the risk of injury proximately caused by the material if reasonable safety procedures are not followed as provided for in the data sheet, and vendor shall not be liable for injury to vendee or third persons proximately caused by abnormal use of the material even if reasonable safety procedures are followed.

All persons using this product, all persons working in an area where this product is used, and all persons handling this product should be familiar with the contents of this data sheet. This information should be effectively communicated to employees and others who might come in contact with the product.

While the information accumulated and set forth herein is believed to be accurate as of the date hereof, Nexceris, LLC makes no warrant with respect thereto and disclaims all liability from reliance thereon. Recipients are advised to confirm in advance that the information is current, applicable, and suitable for their particular circumstances.
